

50 Nifty Tips follow-up Russell Neyman

1. SAWMILLCREEK.ORG-- Probably the best internet discussion board for all types of woodworking, but especially woodturning techniques, technology, and resources.
2. NORTHWEST WOODTURNERS LAB -- This is a Facebook page devoted to ongoing experiments and product reviews. No membership required; just join the conversation.
3. THE WOODTURNING EXPERIENCE -- One-on-one instruction in a professional shop. 360-813-4484 or Russell.Neyman@Yahoo.com
4. Olson's Gaskets will supply large format cork to be used as jamb chucks even though selling it is not his regular business. Sandy Olson's cell phone number is (360) 908-3344.

NOTE from Russell Neyman:

I've presented "Fifty Nifty Shop Tips" nine times, mostly on the West Coast but elsewhere, too, and I'd rate this last one as one of the most successful. Now, I'm not trying to pat myself on the back. Much of the credit for a lively, informative, and educational meeting goes to your membership because they were willing to participate in a useful discussion and grow right along with me. That's a testimony to your group's energy and leadership, and you are to be commended.

As you know, I supported the establishment of this "splinter group" when I was president of OPCAOW, and you can count on me to embrace your future endeavors.

Best wishes.

RUSSELL NEYMAN
